Mon, 16 Jul 2018 06:12:00 GMT Help to configure aironet 1100 series A... - Cisco Community - Solved: I am having trouble connecting an Aironet 1100. I was able to connect to via the web to do a software update on it. Now I am unable to connect to the Access now. I have flashing LED lights on the AIRONET 1100. The lights are flashing GREEN Tue, 13 Nov 2018 15:31:00 GMT Solved: Aironet 1100 - Cisco Community - Aironet extensions, which are enabled by default, improve the access point's ability to understand the capabilities of Cisco Aironet client devices associated with the access point. Disabling Aironet extensions sometimes improves the interoperability between the access point and non-Cisco client devices. AIRONET 1100 SERIES
ACCESS POINT - Newegg
- Hi fella..yes i use low loss
cable of cisco. However i
tried eliminating the cable.I
directly connect the 1231 to
the antenna to minimize the
cable but still the
throughput is 2 Mbps. The
current data rate displayed
only goes to 5.5 Mbps. Fri,
