Ryerson) in simplifying polynomial and rational expressions. Students will reason Textbook Replacement Cost: \$100 Course Description This course introduces the mathematical concept of the function by extending Sat, 10 Nov 2018 02:20:00 GMT CLARKSON SECONDARY SCHOOL - Pages - Eleventh Grade (Grade 11) Functions and Relations Questions You can create printable tests and worksheets from these Grade 11 Functions and Relations questions! Select one or more questions using the checkboxes above each question. Eleventh Grade (Grade 11) Functions and Relations Questions - b) Determine the inverse of this function. I calculated the beginning and end of the range by substituting $d = 0$ and $d = 5000$ into the equation for $T(d)$. $T(211) = 5$ is the inverse function. so I chose to end the domain at 5000. and the range of the inverse is the same as the domain of the original function. $d(22) = 5$ $22 = 211 + 0$.
